

PAINT THE TOWN PURPLE

September is ITP Awareness Month, and we want to Paint the Town Purple! Help us light up as many buildings and landmarks as possible in purple throughout the month of September.

Here's How You Can Paint the Town Purple!

-  Identify landmarks in your local community that can be lit up purple for ITP Awareness Month. It could be your state capitol building, local school or university, stadium, bridge, place of business, monument—the sky is the limit!
-  Complete the applications as required by the places you are pledging to light up—these can usually be found on their website.
-  Share with us and tag us in pictures of your lit up monuments on social media!
